ControlLogix SERCOS Interface Modules, Firmware Revision 18

Catalog Numbers 1756-M03SE, 1756-M08SE, and 1756-M16SE

When To Use These Release Notes

Use these release notes for information about firmware revision 18.05.

IMPORTANT	Before updating your ControlLogix SERCOS Interface Modules, we strongly recommend that you review information pertinent to previous major firmware revisions. For example, when updating from revision 17.xx to 18.xx, view information for revision 17 in the ControlLogix SERCOS interface Module, Revision 17 Release Notes, publication 1756-RN653, in addition to the content of these release notes.
	Firmware release notes contain material for all minor revisions subsequent to each major revision. If your controller, for example, is at revision 17.10, and not the last minor revision, 17.16, you should view all of the information for revision 17.10...17.16 before updating to revision 18.xx.
	For more information, see the ControlLogix SERCOS Interface Modules, Firmware Revision 17 Release Notes, publication 1756-RN653.

Compatible Versions of Software

To use firmware revisions 18.05, the following minimum software versions are required.

Software	Required Version
RSLinx Classic	2.56 (CPR 9, SR2)
RSLinx Enterprise	5.21(CPR 9, SR2)
RSLogix 5000	18.00 (CPR 9, SR2)
ControlLogix controller	18.11
RSNetWorx for ControlNet	10.00 (CPR 9, SR2)
RSNetWorx for DeviceNet	
RSNetWorx for EtherNet/IP	

**Rockwell
Automation**

Additional Resources

For more information on using the ControlLogix SERCOS Interface Module, see the publications listed in the following table.

Publication Title	Publication Number
ControlLogix SERCOS Interface Modules, Firmware Revision 17 Release Notes	1756-RN653
SERCOS Motion Configuration and Startup User Manual	MOTION-UM001
